

Vaccine for Children Immunization Champions

Congratulations from the Allegheny County Immunization Coalition! Thank you for your dedication and hard work. Because of your outstanding efforts, our children and communities are better protected from vaccine preventable diseases. To qualify to be an immunization champion, you must receive an overall score of 90% or higher when the Vaccine for Children Quality Assurance Nurse audits your facility. To be eligible for conference recognition, your facility needed to be audited between August 1, 2014 and August 15, 2015.
